DETAILED ACTION

Response to Amendment

1. Applicants amendment filed May 8th, 2006 have been entered and made of record.

2. No claims have been amended. No claims have been canceled and Claims 1-11 are now pending.

3. Applicants amendments and arguments have been fully considered and are found persuasive for at least the following reasons:

4. Applicant's extensive remarks made in regard to the last filed amendment clarify the differences between the presently recited claims and the prior art of Davison. Applicant's convincing remarks are extensive and are summarized in the Reasons for Allowance below. In view of Applicant's remarks all the previously presented 112, 102 and 103 rejections are hereby withdrawn and the application is in condition for allowance.

Allowable Subject Matter

5. Claims 1-11 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 3 and 6-8 were previously indicated allowable in the last Office action.

Reasons for allowance of claims 1, 2, 4, 5 and 9-11 are given below.

Applicant's remarks made in view of the 112 rejections are persuasive and clarify the previously presented issues.

Applicant's remarks and arguments regarding the scope of the presently recited claims and the prior art of Davison will be summarized. For further explanation, Applicant's remarks are found on pages 6-10 of the response filed May 8th 2006.

Applicant points out that the depth maps and resolution maps calculated are differently than what was previously interpreted in Davison to read on those limitations. Therefore in view of the explanation given in the remarks by applicant the presently recited claims distinguish over the prior art of record. None of the other found prior art of record teaches or reasonably suggests the claimed elements of claim 1, namely the combination of steps of calculating for each image a depth map and a resolution map, matching the pixels by projecting and finally selecting a pixel of the current image based on the resolutions of the images. Therefore independent claim 1 and subsequent dependent claims 2, 4, 5, and 9-11 are accordingly found allowable in addition to the already allowed claims 3 and 6-8.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
